**PowerNet Global Industry Veteran to Speak at VON 2007**

**Cincinnati, OH, January 19, 2007** – PowerNet Global Communications, an integrated communications provider, announces industry veteran and its Director of Next-Generation Services to speak at the upcoming Spring VON show March 19-22 at the San Jose Convention Center. For the last 10 years the industry has gathered at VON to gain insight on the most current happenings in telecommunications. This year VON focuses on 5 specific technologies that are impacting the world of telecommunications; VoIP, Fixed Mobile Convergence, IMS, IPTV, and Wireless.

Leo Chan, Director of Next-Gen Services at PowerNet Global, will speak at VON on new services and new rules for IPTV. Leo has over 10 years of experience in telecommunications and information technology. He has played key roles in delivering technology-based solutions for major telecommunications companies in the United States and abroad, with a specialization in wireless, mobile computing and Internet-based applications.

Leo's session will speak on what it means for an IPTV strategy to provide emergency broadcasts services, what regulatory jurisdictions can impact the IPTV strategy and how to deliver a message only to a specific subset of your subscriber base. His session will cover:

- Location specific profiling tools.
- Given these requirements do advertising services change?

**About PowerNet Global**

Founded in 1992, integrated communications provider PowerNet Global ([www.powernetglobal.com](http://www.powernetglobal.com)) works with many of the country's top communications agents and affinity groups to offer a wide range of integrated voice, data, and Internet solutions nationwide to residential and commercial customers. Leveraging its reputation in the industry with strong carrier partnerships, PowerNet Global offers tremendous opportunities for carriers, resellers, agents, and affinity groups. The company is headquartered in Cincinnati, and has offices in Jamestown, New York and Chicago. PowerNet Global has achieved consistent growth—throughout the telecom industry downturn—by developing and marketing an expanding array of competitive products, and maintaining a clear focus on delivering unrivaled customer support.
